4184 Olive

4011 Taupe

4003 Walnut

4009 Espresso

CONTROL PANELS

THE MAIN ADVANTAGES OF THE PANELS:

- optimized design
- smooth height adjustment within selected ranges (sit-stand)
- display
- built-in anti-collision sensor

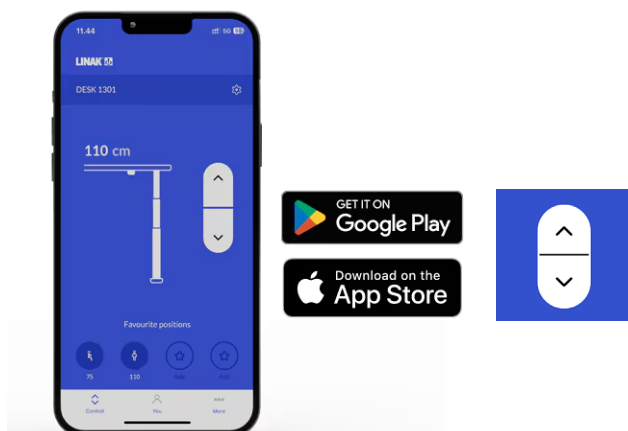

TWO TYPES OF CONTROLS:

- up-and-down paddle with intuitive position adjustment
- controller with a display, height memory and a dedicated app

DEDICATED APP

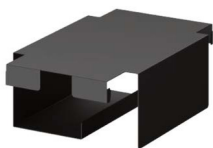

The free **Desk Connect™** app (available for Android and iOS) lets you conveniently control the height of your desk directly from your smartphone. It allows you to save your favorite desk positions and quickly switch between sitting and standing. The app promotes healthy habits by sending reminders to change your position throughout the day.

ACCESSORIES

We offer a wide selection of accessories and expert assistance in choosing the best option.

Ask our Project Manager about the availability of accessories that match the color of the frames.
